SWE 3513 Artificial Intelligence - Individual Assignment 2

Item	Value
Full name	YOUR FULL NAME
Registration number	25/27821
Username	ug2527821@ines.ac.rw
Verification code	AI-A2-7821
Commit hash	PASTE_COMMIT_HASH

I declare that:

1. This submission is my own work for the Musanze Harvest Intelligence Service assignment, built from my own seed and registration digits.

2. I used an AI assistant (Claude, by Anthropic) to help generate and debug code and to resolve set-up errors. Details are in evidence/AI_USE.md.

3. I ran the system myself: run_all.py, predict.py, pytest and the FastAPI service.

4. The interpretations of one regression error, one classification error and one farm cluster in my report are written in my own words.

5. I have read the code, I can explain it, and I can make a small change to it when asked by the assessor.

6. The dataset is synthetic. No real personal or farm data, passwords or keys are included.
